**A GOOD WORK ACCOMPLISHED.**  
Some years ago some of the ladies of Wauseon started a fund for the purpose of erecting an entrance gate way at the Wauseon cemetery. After the first efforts were made most of the Wauseon people forgot all about it but not so the ladies who originated the movement, they stayed by the project until they succeeded in raising \$121.00. The beautiful stone gateway at the main entrance to the cemetery is the result of the efforts of these women with civic pride. The cost of the gateway was \$150. The Cemetery Trustees making up the full amount.

The new system insures prompt service for the customers, accuracy in the keeping of accounts and is a saving of time and energy.

**NOTICE THESE FACTS.**  
Without utilizing the time for which the County is paying me, by making a personal canvass I wish to submit the following for the consideration of the voters.  
Papers of each political party have recognized my work as Prosecuting Attorney in setting forth editorially and without compensation facts about my office.  
Since my opponent for my second term is criticizing my administration I can only ask that the Republican Voters investigate these statements.  
As Prosecutor I have only lost two cases for the State; I have had assistants in five cases and in each and every case I paid my own assistants. I handled the other indictments alone, twenty-three in number. There were seven grand jury cases which only remained more than one day, and we often worked at night. Fines nearly balanced cost of prosecutions. Indictments were based upon no statement and without evidence that the state paid but \$25 for lawyers to defend criminals.  
I have counseled the different officers in the county and townships with the result that no township or county has been sued or has sued.  
I may not be the best of lawyers, yet I won in every criminal case which my opponent defended, in the lower and upper courts.  
I have always appreciated the confidence the people of this county have placed in me and I hope I have retained the same; I have made mistakes otherwise I would not be human but wish to add that if the above statements set forth are not substantiated by the records I shall not expect your support.  
CHARLES T. STAHL,

### FOR SHERIFF.

Among the several county offices for which candidates will be selected at next Tuesday's primary will be that of Sheriff, York township history of twenty years ago may repeat itself next Tuesday again. This year south York furnishes another young man candidate, Earl Dunbar, built over strong short specifications, tall, square jawed and determined. Mr. Dunbar has made a straight forward campaign saving nothing against his opponents and making many friends for himself. He has made an effort to visit every community, but his farm work and work as road superintendent has made it impossible to see everybody. Mr. Dunbar as one of York's road superintendents for the last two years, has been a careful official and has saved the township considerable money on the work he has done. He solicits your vote.

**THEY HAVE TROUBLES.**  
Some people may think that the candidates who have been campaigning the county during the past three or four weeks have been having a real nice time. Then try the following mixture: Slice 5 quarts of lime with hot water to the consistency of cream. To this add one pint of kerosene or a coal tar product and 1 pint of borax. Dilute until it can be applied with a brush or spray pump. The coal tar product kills mites and the lime whitens the walls.

### STATEMENT BY PROMINENT REPUBLICAN FARMER.

Mr. C. L. Shreve, a prominent Republican farmer of South York, makes the following statement over his own signature:  
Wauseon, Ohio, Aug. 2, 1916.  
On last Monday evening, Chas. T. Stahl called at my farm in South York and asked me why it was that every body was against him down there; I said to him, that we had made up our minds that we wanted a man for prosecutor who would be prosecuting attorney himself and not just hold the office and have somebody else transact the business. He then said, 'I promised I would take care of the business of the office for the salary and I have done this; whenever I have had an assistant I have paid him out of my own pocket.' I then said to him, 'I understand that Frank Ham gets two thirds of your salary.' He said, 'Yes, that is a fact, but it is a good thing for me anyhow to give him that and keep my connection with that office. I cannot afford to leave by partnership even if I have to give Ham that much of my salary.'

A LARGER WHEAT CROP.  
Banner yields of wheat on farms scattered throughout Ohio, in spite of the unfavorable winter are due to the excellent care of the soil in preparing the seedbed and to the fertility of the soil, say the soil specialists. Just now the College of Agriculture of Ohio is arranging for soil fertility meetings in August and September, which are designed to help the farmer handle his soil for a bigger crop yield. A specialist is at your service who will consider the fertility of your soil, the manure available on the farm, the best fertilizers to buy, and test it for acidity. Any reader of this paper can secure a demonstration by writing to Clark S. Wheeler, Director of the Agricultural College Extension Service, Columbus, Ohio.
